EcoEnergy Federal Government Home Renovation Grants

The Federal Government's ecoEnergy Program is valid until March 31, 2012. A government grant of up to \$5,000 is available to homeowners that have completed energy efficient home renovations. For windows and doors, the specific rebate for Energy Star rated products is \$40 per rough opening. For more information on the EcoEnergy Federal Government Home Renovation Grant, please visit the Natural Resources Canada website:

Or call 1.800.622.6232 for more information.

LiveSmart BC Home Improvement Incentive Program

Homeowners can receive up to \$7,000 in government grants, BC rebates and home renovation incentives. A certified energy advisor must conduct an energy-efficiency assessment before and after any renovations are done to the home. There are 54 incentives offered under the LiveSmart BC home renovation incentive program, including up to \$70 per window, door and skylight replacement. Renovations must be complete by March 31st 2013 to be eligible for these grants and rebates. For more information on the LiveSmart BC home renovation rebate program, please visit the LiveSmart BC website:
