

# GILKEY INTERNATIONAL MIDDLE SCHOOL

Working with award-winning studio Hacker, Cascadia Windows & Doors developed and manufactured a cohesive fiberglass storefront glazing solution for Gilkey International Middle School in Portland.

With a focus on future-forward design and environmental stewardship, the Gilkey School—part of the French American International School campus—features 79 factory-built storefront windows, complete with 59 operable windows and custom tapered glass to match the pitched roofline.

## PROJECT DETAILS:

- Double-glazed, Low-E coated tempered glass
- AAMA 625 performance-grade paint
- Remote controlled, second story awnings
- Third-party doors supplied and integrated on-site into fiberglass storefront framing
